

Advanced C.C.T.V. Course Certificate Level 4

This is a 5-day intensive and detailed theory/practical skills course, which aims to provide you with an advanced level of knowledge and skills of C.C.T.V. This course gives you a comprehensive knowledge and understanding with the ability to design, specify, programme sophisticated C.C.T.V. systems and it will also leave you with the ability to select the correct type of archiving, design and programme integrate systems and understand telemetry communications. This course is a follow on to our intermediate level 3 course.

Is IT FOR YOU ?	WHAT DOES IT COVER ?		
<p>IF YOU ARE</p> <ul style="list-style-type: none"> Managers of C.C.T.V. systems. System integrators. Installation Engineers looking to comprehensively extend their skills. System designers. Security advisors. Somebody who received our Intermediate C.C.T.V. course certificate. <p>THEN YES IT'S FOR YOU</p> 	<ul style="list-style-type: none"> Principles of electronics in C.C.T.V. applications Operating and calibrating relevant test equipment Theory of analogue and digital C.C.T.V. RS232, 422 and 485 and other telemetry protocols VCR's digital and multiplexes 	<ul style="list-style-type: none"> Code of practice and legal issues Rotakin testing European standards Health and safety in the control room Group and individual workshop sessions to be carried out PC controlled integrated matrix systems 	<ul style="list-style-type: none"> Digital recording systems in detail Compression systems – mpeg, jpeg, wavelet and others Conditional refresh Networks – ISDN, TCP/IP, ATM and others

We aim to bring you the best training available in this specialist area. Our professional training formula means:

- high quality training from reputable, respected professionals
- up-to-date, well researched courses written by our trainers with your needs in mind
- comprehensive, well-structured, well illustrated course manuals.
- small, informal groups (max 8 on this course) so you relax, enjoy the course & learn more
- modern presentation media and training techniques
- plenty of hands-on practical sessions as shown - and we mean your hands on.
